

# Sustainability

We're on a mission to reduce our landfill waste by 70% and we need your support.

The biggest contributor to our landfill waste is single use plates and cutlery. To reduce this waste we request that all guests refrain from bringing disposable plates, cutlery and platters to the Club where possible. If arranging a caterer please ask them to do the same. I'm sure they will be happy to support it.

To minimise food waste ending up in landfill we have purchased a commercial composter. It can compost up to 25kg of food waste in 24 hours so all food waste can be composted onsite - how good is that!

Our catering partner, [Spitting Image](#), is supporting our initiative and will be providing crockery & cutlery for all events as part of their packages.

For BBQ hire and self-catered events we will have crockery & cutlery available for hire. And don't worry - if you hire from us we'll even do the dishes.

We'd love everyone to get onboard.
